Ukulele Chord and Rhythm Practice Kit

Eight independently drawn GCEA chord diagrams, a user-started metronome and practice logs.

Read string order

Every diagram reads left to right as G, C, E, A. Zero means an open string; a filled dot marks a pressed fret. The diagrams were independently specified and pitch-checked for the named chords, rather than copied from a chord database.

Choose a short sequence

The included chords are C, Am, F, G, Dm, Em, D and A7. Enter a comma-separated sequence of these names. The practice screen changes chord at the start of each bar and loops the sequence. It includes no song score or copyrighted recording.

01 / Input record

Purpose
Practise a self-chosen GCEA chord sequence.

Fictional input
C, Am, F, G; 80 beats per minute, four beats per bar, one chord per bar.

Units and input scope
This is not an audio transcription tool, song collection or assessment of musical skill.

Input version
Example version 1; record a new version after changing an input.
